Name	Age Class	Club	Time
Liz Ferrand	w50	SWOC	23.00
Karen Jones & David Owen	w35	IND	70.08

Organisers Comments:-

Here are the results of the Wenallt Hill event. This was the first time using the new SI electronic punching kit, and all went well, with it proving very simple to use.

Wenallt Hill, despite its extensive path network, has plenty of tricky technical areas for the more experienced and hope that all were suitably challenged.

A note in the Final Details to bring headtorches might be a good idea next time!

We are very pleased that some made the long slog over to controls 21, 22 and 23!

Thanks to the experienced for spending time to help the few newcomers who turned up, and to Pete Colbert for assistance with the SI units and for collecting in controls in near darkness.

Hope you all enjoyed it.

Angela Heeley & Jamie Sutherland
